SIZING

Standard Size Chart

A general reference guide for round-neck, polo and similar cut-and-sew styles. Exact measurements are confirmed against an approved sample before bulk production, and can be adjusted to your own size chart on request.

Size	Chest (in)	Length (in)
S	36	27
M	38	28
L	40	29
XL	42	30
XXL	44	31
3XL	46	32

Notes on Fit

- Measurements are body-flat chest width x 2 and front length, in inches
- Tolerance of ±0.5 inch is standard across bulk production runs
- Youth/kids sizing and product-specific charts (hoodies, jerseys) available on request
- Your own size chart can be used as the production specification instead of the above

Logo Placement & Dimensions

Typical placement sizing used across corporate and promotional apparel — a starting point for planning your artwork. Your exact placement and size is confirmed with you at the sample/mock-up stage before bulk production.

Placement	Typical Max Size	Best For
Left Chest	9 x 9 cm (3.5" x 3.5")	Logos, small wordmarks
Sleeve	7.5 x 7.5 cm (3" x 3")	Small logos, badges
Full Back	Up to 30 x 40 cm (12" x 16")	Large logos, back prints
Full Front	Up to 28 x 35 cm (11" x 14")	Large graphics, all-over designs

Placement Options

Left Chest	Sleeve	Back	Full Front
------------	--------	------	------------

Branding Methods by Placement

Method	Common Placements	Notes
Embroidery	Left Chest, Sleeve	Best for small, detailed logos
Screen Printing	Chest, Back, Front	Best for spot-colour designs
DTF / DTG	Chest, Back, Front	Best for multicolour or photo-style artwork
Sublimation	Full Front/Back, All-Over	Best for full-colour sportswear graphics

Artwork File Guidelines

Sending artwork in the right format helps avoid delays at the sampling stage. General guidance below; our team will confirm exact requirements once your branding method is selected.

Recommended File Specs	
Vector Artwork (preferred)	AI, EPS or PDF — for embroidery and screen printing
Raster Artwork	PNG or high-res JPG, 300 DPI minimum, for DTF/DTG/sublimation
Colour Matching	Pantone (PMS) reference where exact colour match is required
Text in Logos	Outlined/converted to curves to avoid font substitution
File Size	Up to 5MB via the website enquiry form; larger files by email

Don't Have Print-Ready Artwork?

Share what you have — even a low-resolution logo or a reference image — and our team will advise the best branding method for it, or help prepare a print-ready version before production.

PLANNING YOUR ARTWORK?

Send Us Your Logo

We'll confirm the best placement, method and file format for your design — and quote your order at the same time.
